

If you're interested in a career in Health Administration this training could be a good option.

1. Organization providing the training:

Health Tech Alley

2. Physical location where training occurs:

Training occurs in person or virtually:

- Maryland Innovation Center
6751 Columbia Gateway Drive, Suite 300
Columbia, MD 21046
- Virtual (ZOOM)

3. Description of the training offered:

Insert description of training including number of hours, general schedule, skills earned, etc. If you are offering multiple trainings for different careers in Health Administration, please list them out and explain. For example, "If you are interested in becoming a Health Electronic Records (explain what that career is and what the training looks like). It looks like in question 7 you list out many possible training tracks you offer under EARN. I think we would need to list them all here and explain so the jobseeker has a good understanding.

4. Trainees have the opportunity to earn the following industry-recognized credentials:

List all industry recognized credentials for each career that would be noted in question 3.

5. Am I eligible?

To be eligible to participant in the training described above you must:

- Be 18 or older
- Be a resident of the state of Maryland
- Have your high school diploma or GED
- Be able to read and write in English-bilingual (desirable)
- Be able to solve basic math problems

6. What is the application process?

Interested candidates should email info@healthtechalley.org. An intake specialist will follow up to confirm eligibility.

7. How much can I expect to earn if I complete this program and obtain employment in the Health Administration field?

Applicant participants who complete this program are qualified for a variety of entry-level positions in various healthcare settings. Those that complete the program may obtain employment as a Health IT Support Analyst, HIT and EHR Analyst Data Analyst, Healthcare IT Manager, Health Informatician Healthcare AI Strategist, Healthcare IT Support Medical Ethics Specialist, Help Desk HIPAA Privacy Officer, Healthcare IT Manager, Health IT Support Analyst, Data Analyst or similar roles in back office or information technology roles. The average compensation for workers in these occupational roles is generally \$40,000-\$60,000 plus benefit packages, and additional training opportunities. These positions are attainable with a high school education, work experience and an understanding of healthcare fundamentals and demonstrated soft skills.

8: How much do I have to pay for this program?

There is no cost to applicants.
