## LET SIDES HANDLE THE DETAILS SO YOU CAN FOCUS ON BUSINESS.

**SIDES**
NASWA State Information Data Exchange System
In Partnership with USDOL

### STREAMLINE YOUR WORK
Seamlessly exchange separation and wage information and eliminate manual data entry.

### EXCHANGE INFORMATION QUICKLY
Reduce delays with quick responses, faster claim resolution, and reduced processing times.

### REDUCE PAPERWORK
Streamline your workflow to save time and reduce administrative stress.

### IMPROVE ACCURACY AND EFFICIENCY
Reduce errors that come from manual data entry and transferring data between different systems.

### SAVE MONEY
Decrease hours spent on claim management, reduce printing and mailing expenses.

SIDES is secure, confidential and includes robust security measures to protect sensitive employer data.

# SYSTEM INTEGRATION FACT SHEET FOR EMPLOYERS

## WHAT IT IS

SIDES System Integration is an advanced tool that's customizable, comprehensive and 100% paperless. It allows businesses to integrate SIDES with their own systems, automate claims and reduce manual data entry.

## WHO SHOULD USE IT

Businesses who operate in multiple states or process a large volume of UI claims will save staff time when they respond to a single request format rather than multiple formats.

## HOW IT WORKS

This electronic interface allows employers to customize an integrated system to respond to unemployment insurance information requests.

## GET STARTED TODAY

Contact uisides@naswa.org to learn how to implement SIDES System Integration.

SIDES System Integration is free for employers, but there may be associated system development costs.
